

SourceGear DiffMerge 3.3

Compare and merge files and folders on Windows, Mac OS X and Unix.

DIFFMERGE

Diff

Graphically shows the changes between two files. Includes intra-line highlighting and full support for editing.

Merge

Graphically shows the changes between 3 files. Allows automatic merging (when safe to do so) and full control over editing the resulting file.

Folder Diff

A side-by-side comparison of 2 folders, showing which files are only in one folder, as well as which files are identical, and which are different.

Windows Explorer Integration

Right-click on any two files in Windows Explorer to diff them immediately.

Configurable

Rulesets and options provide for customized appearance and behavior.

International

Compatible with 42 different character encodings.

Cross-platform

Identical feature set on Windows, Mac OS X, and Unix.

SourceGear DiffMerge is completely FREE!
